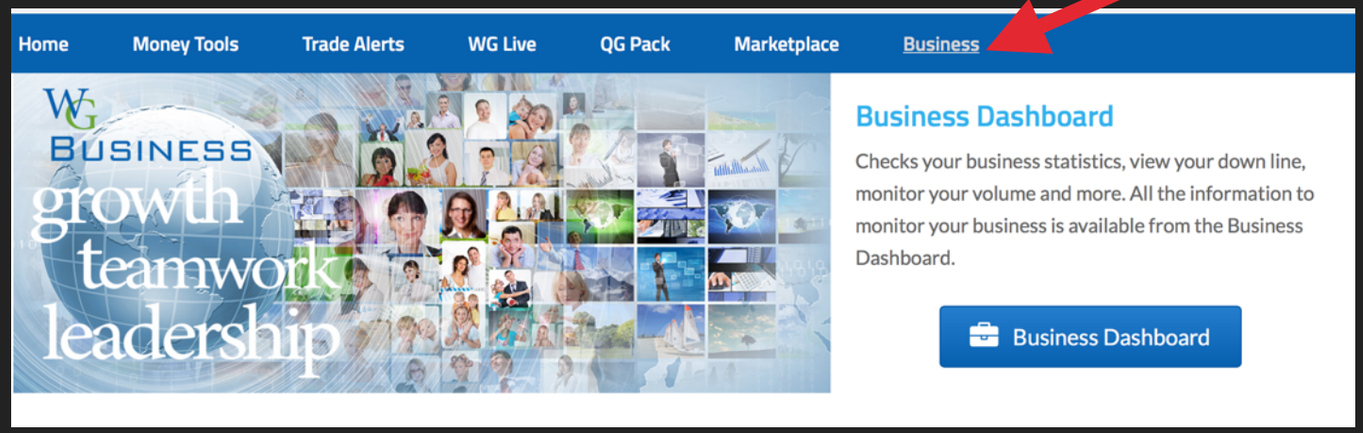
TIME TO GET PAID! *AFFILIATES ONLY*



Get Ready to Get Paid

Preparing to get paid is an important step in getting started with the program. We pay out bonuses electronically via pay merchants. This is the quickest, most efficient and inexpensive way to pay our distributors especially when we have a weekly bonus and the monthly bonus pay days. Currently the pay merchant you will use depends upon where you live - US or International. We will be adding additional merchants in the months to come, but right now it is important for you to locate the invitation email you should have received from the appropriate pay merchant. **US Distributors: Income Valet** and **International Distributors: Transpay.**

Locate your Invitation

Please refer to the email invitation examples so you know what the email looks like. You should check your spam folder if you do not see an invite in your inbox. The income valet invitation will be sent from Income Valet <incomesoft@incomevalet.com> and the Transpay invitation will be sent from: TransPay support <clientsupport@transfast.com>.

Please submit a ticket via the Support Center

SUCCESS DISCIPLINES

Daily Actions

- Talk to AT LEAST 2+ new people a day, making it 60+ people that you would be exposing at the end of each month. Out of the 60, 10-20 people will say yes making you $500 a month. **Use the PS3 system to expose correctly**
- Set Goals on how much you want to be making in 30 days. With that you have to KNOW how many people you need to expose in order to get the goal you're aiming for. Also look at the compensation plan to see how much volume you need.
- Set aside 1-2 Hours a DAY to complete this. - If part time.
- Leverage the project, leverage what your results will be and use your list to your full advantage.
- Every 90 days we will start a new goal for the project.

These are the steps for your Wealth Generator Business journey, as you go up in the ranks you will add more money making habits to your daily life as a Business owner.

Home Events

- Be the best Listener
- Phone in Pockets
- Meet & greet everyone
- Present yourself in a positive manner

BUILDING YOUR BRAND

Building Your Brand
Instagram & Facebook

It's not about the lifestyle its about the image quality make sure you have high quality photos and videos. Remember the caption is as important as the photo the key to marketing is to have people see themselves in your shoes.

Instagram Tools To Build A Following: Crowdfire And Instagress are great tools that will help you build your following meaning more eyes on you. The more people that see you equal the more people that will join you. It's a numbers game.

Facebook: The best way to attract people on Facebook is by being a professional in every sense of the word. Videos are the most powerful thing on Facebook because they stay on top of your friends feeds the longest.

Important Tip: On social media you will attract who you are alike so if you're a professional you'll attract professionals to your business. If you're a bum you will attract bums and you don't want that. Also never say Wealth Generators in your post the purpose of social media is to peak interest.
